

RESCUE UNION SCHOOL DISTRICT

AGENDA ITEM: California Assessment of Student Performance and Progress (CAASPP) Update

RECOMMENDATION:

The Board receive test results for the 2022 administration of the Smarter Balanced Assessments.

BACKGROUND:

In the spring of 2022, students in grades 3-8 took part in the Smarter Balanced Summative Assessment to measure their ability to demonstrate and apply knowledge associated with the California State Standards. Assessments included computer adaptive tests and performance tasks in the areas of English language arts and mathematics. Due to transitioning back from the COVID-19 pandemic, the assessments were modified and the normal Cluster scores were not made available.

STATUS:

Student Score Reports (SSRs), as well as aggregate and disaggregated scores for the district and school sites, have been reviewed by administrators and teachers. School and grade level teams have begun developing action plans to strategically target academic areas based on student performance. Since the test was truncated, it is difficult to make comparisons as the last time the full assessment was administered was 2019. Sites are utilizing the overall scores as a baseline and as one method of measurement along with local District assessments to determine areas of strength and areas for growth for the 2022-2023 school year.

FISCAL IMPACT:

N/A

BOARD GOAL(S):

Board Focus Goal I - STUDENT NEEDS

- A. Student Safety and Well Being: Enhance and encourage social, emotional, ethical and civic learning by providing a safe supportive and diverse environment.
- B. Curriculum and Instruction: Provide a meaningful, innovative learning environment using Common Core, and other student content standards and research-based, progressive, effective instructional methodology, instructional materials, staff development and technology that will ensure student success in career and college.

California Assessment of Student Performance and Progress (CAASPP) Update

Rescue Union School District Board of Education

Agenda

- Introduction
- Student Achievement Levels for ELA and Math
- CAASPP Results at a Glance
- CAASPP Overall Results for the District
 - ELA and Math
- CAASPP Results for Student Groups
 - Students with Disabilities
 - Socio-Economically Disadvantaged Students
 - EL Students
 - Hispanic or Latino Students
- Analysis Process and Next Steps
- Questions

Introduction

- The Smarter Balanced Assessment is but one of many measurements that we use to assess student growth.
- The Smarter Balanced Assessments:
 - Are aligned to **more rigorous standards**,
 - Require students to **think more critically**, and
 - Contain **in-depth performance tasks** rather than multiple choice questions.
- The 2022 Smarter Balanced Assessment was truncated thereby limiting the amount of data available for school districts.
- The results in this presentation serve as our new benchmark for our district moving forward as the California School Dashboard is being recalibrated.

Student Achievement Levels for ELA and Math

Standard Exceeded: Advanced progress toward mastery.

Standard Met: Progress toward mastery.

Standard Nearly Met: May require further development to demonstrate the knowledge and skills needed for likely success in future coursework.

Standard Not Met: Needs substantial improvement to demonstrate the knowledge and skills needed for likely success in future coursework.

CAASPP Results at a Glance

Rescue Union School District 2021-2022

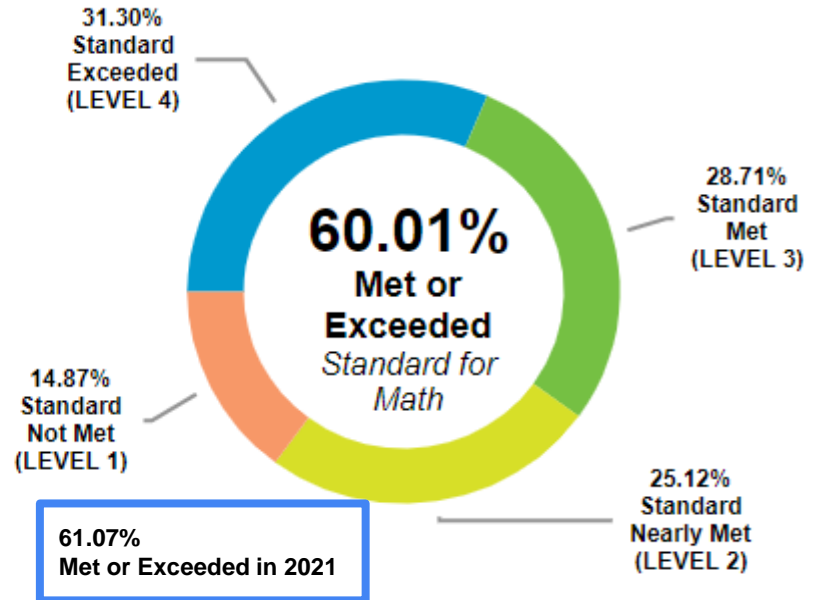

ELA

Percent of students within each achievement level

Mathematics

Percent of students within each achievement level

Overall Results for the Rescue Union School District

ELA 2022

Overall Results for the Rescue Union School District

Math 2022

CAASPP Results for Students with Disabilities (323)

CAASPP Results for Socio-Economically Disadvantaged Students (325)

Math 2022

CAASPP Results for Hispanic or Latino Students (383)

ELA 2022

CAASPP Results for Hispanic or Latino Students (383)

Math 2022

Analysis Process and Next Steps

- Sites and grade level teams have already set to work reviewing their results. Normally this includes analyzing trends at the claim and target levels. However, that data is not available to us this year. Our teams are continuing to use our District and local assessments to measure student achievement
- Teachers received the scores of their current students and are using that overall data along with beginning of the year and trimester assessments to identify areas of strength and areas of need for students
- Action plans are being implemented to target areas for growth, including increased time on content/concepts, use of SBAC Interim Assessment Blocks, refined intervention grouping, and collaboration regarding student performance
