

STUDENTS: Tested positive – Isolation

Summary guidance

All days are from start of symptoms or test day if asymptomatic with the day symptoms start or test date being day zero

- **Stay home** for at least 5 days.
- Isolation can end after day 5 if symptoms are not present or are resolving and a [diagnostic specimen*](#) collected on day 5 or later tests negative.
 - This can be an At-Home test Rapid Antigen
 - Parent can email test results
- If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- If fever is present, isolation should be continued until fever resolves.
- If symptoms, other than fever, are not resolving, continue to isolate until symptoms are resolving or until after day 10.
- Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings (see Section below on masking for additional information)
